At the end

I have good information and skills about the association law, labour law and about law of contract and about the international law due to the fact that I have taught the above mentioned matters at the university and have acted as the judge in similar matters. The experience of more than 20 years of the arbitration work and lawyer work is a steady bottom to the know-how. Lately I have examined to the match manipulation and match fixing and the athletes' accident law joining judicial problems.
